## Experience

### CodeAlpha

Java Developer Intern

March 2025 - March 2025 (1 month)

### Oasis Infobyte

Web Development and Designing

September 2024 - October 2024 (2 months)

Involving in the creation of a responsive landing page using HTML and CSS with a sleek and visually engaging interface to enhance user interaction. A functional temperature converter was developed using JavaScript, ensuring real-time conversions and seamless usability. Additionally, a personal portfolio website was built, showcasing technical skills and projects with a well-structured and user-centric design. The work emphasized intuitive layouts, responsiveness, and performance optimization, contributing to a deeper understanding of frontend technologies, problem-solving, and efficient coding practices.

## Education

Centre for Development of Advanced Computing (C-DAC)

Post Graduate Diploma in Advanced Computing (PG-DAC) · (August 2025 - February 2026)

LNCT Group of Colleges

Master of Computer Applications - MCA, Web development · (September 2023 - May 2025)
